

Master Builders Explores Future Relationships in Poland

by Pete Beck

Neil Silverberg and Pete Beck made a trip to Szczecin, Poland at the invitation of Maria Da'browski and her pastor, Jerzy Wasilewski for the purpose of meeting with Polish pastors and exploring future relationship possibilities.

The meetings were held in Pastor Wasilewski's church the last weekend of March on Friday evening and all day Saturday and Sunday morning. Neil and Pete each shared four messages pertaining to the meaning of the apostolic church and team and apostolic team relationships.

There was ample time for getting to know some of the pastors and their wives as well as ministry to them. Much ministry took place Saturday night. Twelve different churches were represented from all over Poland.

Several meals together allowed time for personal interchange with the pastors. Polish sisters prepared their finest cuisine and the hospitality could not have been more wonderful.

Plans are in the making for further trips and conferences as several churches asked for future personal visits specifically to their cities. In keeping with our vision, we hope that this will begin the developing of long and fruitful relationships whereby we may be able as an apostolic fellowship to strengthen the brethren in Poland and help in some way to expand the Kingdom of Christ there.
